Certified Information Systems Auditor (CISA)

*This course prepares you for the CISA Exam leading to CISA Certification. This course does not include the **Official Exam Voucher**, however, you can request to purchase the Official Exam Voucher separately.*

About this course:

You must be wondering what the Certified Information Systems Auditor (CISA) is, so let's find out!

The Online CISA Certification training was developed by ISACA for those professionals who are responsible for ensuring that the business and IT systems of an organization are managed, monitored, and protected at all times. This is a certification which is recognized globally, and is considered to be the standard for appraising an IT auditor's skills, knowledge, as well as expertise in assessing the vulnerabilities of a system or network and instituting technology controls in an enterprise environment. The CISA online classes have been designed for audit managers, IT auditors, security professionals, and consultants. They will also aid you in preparing for the ISACA: Certified Information Systems Auditor (CISA) exam.

On average, a Certified Information Systems Auditor can earn up to **\$115,000/-** per annum.

Course Objective:

Once the CISA online classes are complete, candidates will be able to;
