CompTIA Cloud+ Intermediate

This course prepares you for the CV0-002 Exam leading to CV0-002 Certification. This course does not include the **Official Exam Voucher**, however, you can request to purchase the Official Exam Voucher separately.

About this course:

CompTIA Cloud+ Intermediate builds on the concepts taught in CompTIA Cloud+ Basic. The course explores the concepts in more detail and prepares the candidates to appear in the CompTIA Cloud+ CV0-002 exam. The next step in this three course preparatory series is the CompTIA Cloud+ Advanced course. The candidates are taught in depth concepts of analyzing, selecting, monitoring, and protecting cloud resources.

The average salary for a Comptia certified is **\$90,579** per year.

Course Objective:

- Virtualization in the Cloud
- Resource Allocation
- Optimization

Audience:

- The course is intended for the IT professionals working with IT vendors and enterprise customers who are interested in learning about analyzing, monitoring or protecting cloud resources and who are working with the cloud.
- The course is vendor-neutral and covers the general technical concepts applicable to every vendor's cloud infrastructure.

Prerequisite:

- Candidates are highly encouraged to take on the CompTIA Cloud+ Basic course before enrolling for this course.
- The set of three courses is essential to completely cover the CompTIA Cloud+ certification exam course contents.
